

AIR

THE AIR PROGRAM FOR PRETRIAL SERVICES

GRADUATED
ACCOUNTABILITY

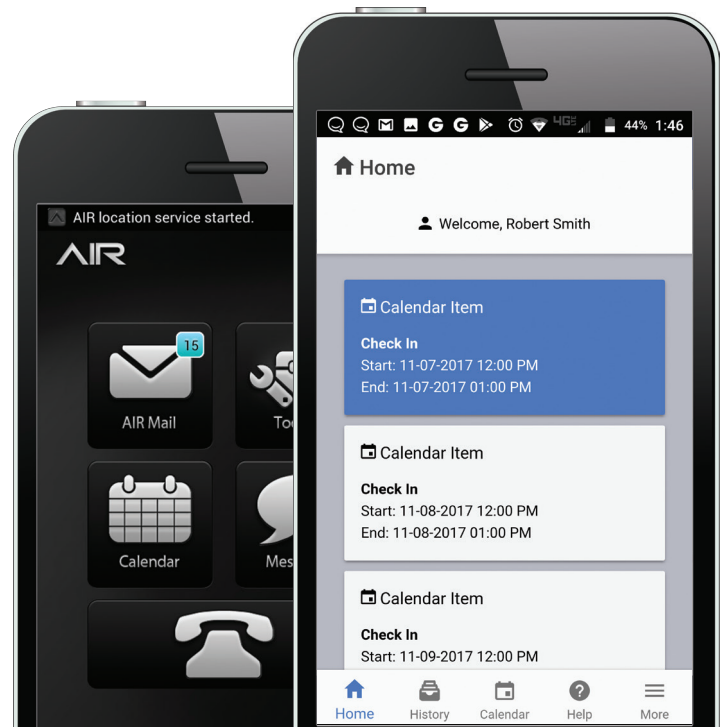

“ I have really been impressed with how easy it is to use the program. Corrisoft provides clients with a customized smartphone that has function-control capabilities, I find it much easier getting a hold of the clients. The ability to consistently communicate with the clients makes it far simpler to hold them accountable and ensure they remain compliant. ”

Darryl Williams, Community Corrections Director
Lauderdale Co., AL

Housing defendants in jail while they await trial proves costly and unnecessary. Many jurisdictions now use pretrial programs as a cost-effective way to reduce jail overcrowding. Pretrial release services need solutions that deliver minimally restrictive activity management while pretrial diversion programs require far greater client-agency interaction.

Corrisoft's AIR program serves as an alternative to incarceration that enables agencies to more consistently communicate with pretrial clients and better manage their activity. AIR features a spectrum of smartphone-based solutions that offer varying levels of accountability.

From a smartphone with use-control features that provides continuous location services to a remote reporting app the client downloads to their own phone, AIR provides agencies with the activity management tools appropriate for any pretrial services program.

AIR PROGRAM BENEFITS

- ⊕ **Consistently contact and communicate with clients**
- ⊕ **Multi-channel, two-way communication**
- ⊕ **Clients can access their calendars at all times**
- ⊕ **All AIR solutions work on the same software platform**
- ⊕ **Selfie request for client verification**
- ⊕ **Set up automated schedule reminders**
